

Imperial HCAI conference 2010

Alison Holmes

Welcome to the third Imperial HCAI

Thank you to all the leads from the eight showcase trust

Our hospitals will always present challenges

“A Showcase Trust
“Track record of whole scale organisational approach
“Key aspect of patient safety and an indicator of quality of care and management

The UKCRC Centre for Infection Prevention and Management

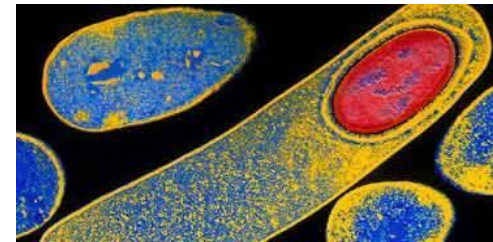

Researching
adoption of
innovation for
Showcaseq
programme

Challengers on the front line:

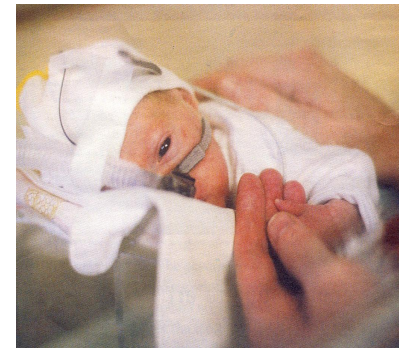

Against infection and
transmission

- “ vs micro organisms
- “ Not just *C.difficile* and MRSA
- “ Nb increasing resistance
- “ Exogenous and endogenous

The front line:

- “ Our patients at the point of care
- “ Outpatients, Inpatients, secondary and tertiary
- “ The most at risk and vulnerable

The front line:

“ Our patients relatives and visitors

“ Our staff..

Our commitment by front line staff has been vital

- “ Informed design from design conception to the shop floor
- “ Staff, patients and public views about new and old design
- “ Product evaluation
- “ Antibiotic behaviour
- “ Adoption and diffusion
- “ Communication and incentivising innovation
